**School is out for Summer:
Be on the Look-out for Unpredictable Children**

- Where ever there are people, schools, parks, playgrounds, sidewalks and roadways you need to “LOOK” for children.
- Think about all the places children could be hidden or ready to dart out into your path.
- Recognize residential clues. (Basketball hoops, hockey nets, bikes, etc...)
- When you see a child or a group of children, “SLOW” down and be prepared for their unpredictable actions. Even the posted speed limit may be too fast.

It is up to you to drive defensively and to keep watch for the unpredictable child!
