PASSENGER BOARDING / DEBOARDING

Bus drivers need to consider passenger safety during the boarding and deboarding process. Here are some tips to consider to keep everyone safe:

- Always ensure your passengers are safely on or off the bus before closing the door and pulling away.
- Allow passengers enough time to sit down or brace themselves prior to departing.
- All riders must remain behind the rear of the driver seat.
- Do not allow passengers to leave carry-on items in a doorway or aisle.
- There should be nothing in the aisle that might trip other passengers.
