## Watching out for Distracted Drivers

Anticipating distracted behaviors in other motorists and learning how to avoid them could save you from potential harm.

Signs that a driver is distracted are:

- Drifting in and out of lane;
- Silhouette of driver is moving up and down inside vehicle as though looking for something;
- Driver appears to have a hand up to ear as though using a cell phone or is wearing headphones;
- Braking suddenly or needlessly;
- Lengthy pauses at intersections;
- Driving slower than speed limit or flow of traffic.
