Don't Crack the Egg

Drive as if you have a basket full of eggs on the floor of your bus and you don't want to crack any of them!

- Make sure to project your eyes further down the road to recognize potential hazards.
- Maintain a six second following distance with the vehicle in front of you.
- Avoid distractions.
- Remind passengers to stay seated until bus is stopped, to hold on to handrails and to watch their steps

Allow enough time and space for a smooth ride and an easy brake!
